### Home to Home and the 2020 Tune Up

The 2020 SBMS Tune Up was held as a home to home event this year. Rigs were tested, contacts were attempted, and some even listened for the DF7SFA beacon on 10.368.25 (plus Doppler) at 1100-1130 PDT moonrise thereafter.

Home to home has been changed to every non-meeting Thursday at 20:00 PDT. Watch this space for further developments.
