From the speaker, K6JEY:

EME program resources. The talk will introduce participants to the VK3UM EME Calculator Program and the Moon Sked lunar prediction program.

The VK3UM program can be downloaded at <http://www.vk5dj.com/doug.html> Please load the G3LTF 1296.4 file into the program. We will be using it during the talk.

The Moonsked program can be downloaded from here- <http://gm4jjj.co.uk/MoonSked/moonsked.htm> . Please put your own home station data in both programs. and save the data. Exploring the programs before the talk is a good idea.

Looking forward to joining you, Doug K6JEY
