## SBMS Meeting August Meeting Coming Up

Posted by Courtney Duncan

Tags: [Meetings](#)

The San Bernardino Microwave Society (SBMS) will meet Thursday August 4, 2022 1900 PDT (08/05/22 0200 UTC) at the American Legion Hall in Corona, California (1024 Main Street, 92882) and on Zoom. Zoom link will be provided the day of the meeting.

This month we will have a round table discussion of our plans for the August and September 2022 10 GHz and Up contest weekends. (August 20-21 and September 17-18.) Think about your plans and your questions and come prepared to negotiate and strategize with your other microwave operators. Mel WA6JBD will have radio coverage prediction software at the meeting. Think of sites that you would like to study the coverage from or between. Many experienced operators will be present and will be able to advise and consult on operating locations (mountaintops and rover locations and access) and techniques.

Those coming to Corona early to beat the traffic, join us for dinner at Sizzler, 1461 Rimpau Ave. 92879.

See you Thursday, Courtney N5BF President SBMS
