The San Bernardino Microwave Society will meet at the American Legion Hall in Corona, CA at 1900 PDT on October 6, 2022. Our usual Zoom link will also carry the meeting.

This month's program will be given by Loretta Smalls AJ6HO, showing and demonstrating her 10 GHz rig and discussing her experiences building and operating it. Loretta is a highly self-motivated though relative newcomer to amateur radio microwaving. Her experiences are demonstrative of what happens and what is possible for those interested in getting more involved.

A reminder will be sent out Thursday.
